

**TENNESSEE GENERAL ASSEMBLY
FISCAL REVIEW COMMITTEE**

FISCAL NOTE

SJR 552

February 2, 2012

SUMMARY OF BILL: Encourages school-located influenza vaccination programs to help increase school-aged children's access to immunization. Directs the Department of Commerce and Insurance (DCI) and the Department of Health (DOH) to convene a meeting with relevant stakeholders to discuss opportunities to encourage private insurers who already cover influenza vaccination to cover all reasonable and customary expenses, including the cost of vaccine and administration fee, incurred when influenza vaccine is administered outside of the physician's office in a school or other related settings. Resolves that an appropriate copy of this resolution be prepared for presentation.

ESTIMATED FISCAL IMPACT:

NOT SIGNIFICANT

Assumptions:

- Convening a meeting with relevant stakeholders can be accomplished utilizing existing resources of DCI and DOH without an increased appropriation or reduced reversion.
- Any increase in state expenditures to prepare a copy of this resolution for presentation will be not significant and can be handled within existing budgetary resources.

CERTIFICATION:

The information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, appearing to read "Lucian D. Geise".
